5500E

Crawler crane

TIER IVf emission
standards

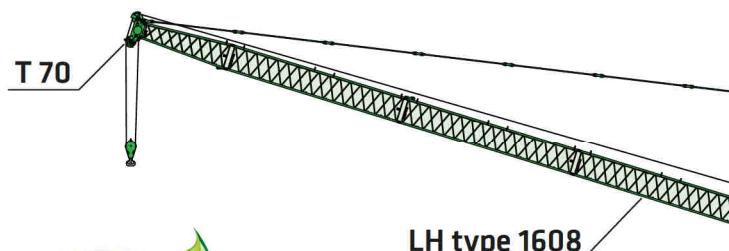

5500E Advanced. The E-Series.

1972: Rope-driven SK 15 with plastic operator cab

What makes up the E-Series

- 60 years of experience in the design and construction of duty cycle cranes
- Uncompromisingly high performance in all areas
- Technology that can be mastered: High-quality components without over-engineering
- Long product service life and high value retention

Your top benefits:

1 Green Efficiency

Save fuel – reduce operating costs
Work quietly – protect operator and environment

2 Peak performance

Durable mechanical systems – stressed parts optimized
High speeds – high load capacities

3 Maximum operating comfort

Comfortable Maxcab operator cab – relaxed work
SENCON – SENNEBOGEN Control System

4 Flexibility in use

Driving under load – low space requirement
Strong undercarriage traction – good all-terrain mobility

5 Easy transport

Star-Lifter undercarriage – quickly ready for use
Ballast support system – short set-up time

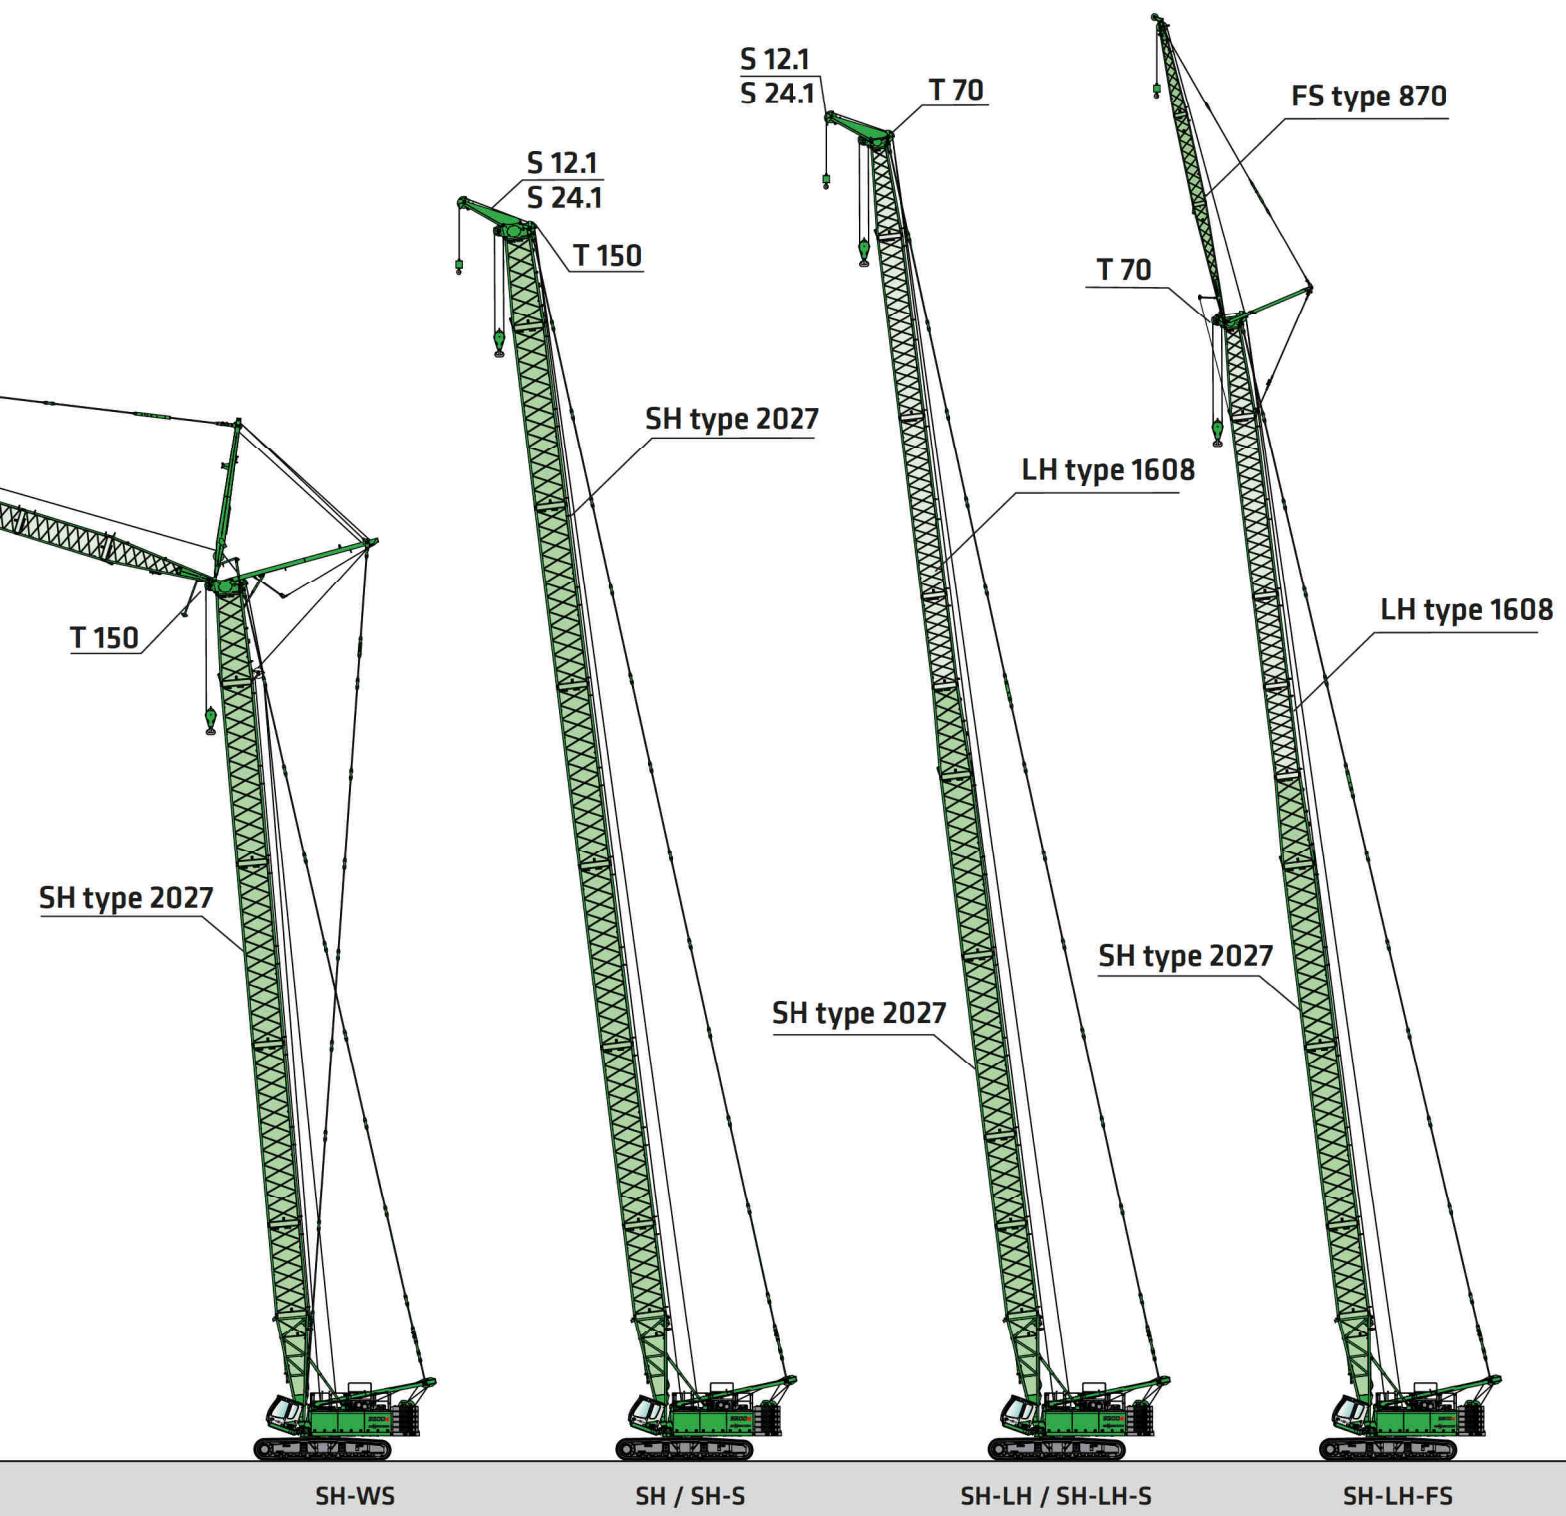

6 Maintenance and service made easy

Easy fault diagnosis – central measuring points
Easy maintenance – clear labeling

7 Consultation and support

3 production sites – 2 subsidiaries
120 sales partners – over 300 service stations

5500E

5500E Technical data, equipment

MACHINE TYPE

Model (type) **5500**

ENGINE

Model	Cat C9; Tier IIIa 261 kW / 355 hp at 1850 rpm Cat C9.3; TIER IVf 261 kW / 355 hp at 1850 rpm Direct injection, turbocharged, charge air cooler, reduced emissions
Cooling	Water-cooled
Diesel filter	With water separator
Air filter	Dry filter with pre-separator, automatic dust discharge, main element and safety element, contamination indicator
Fuel tank	max. 850 l / 785 l (center of the sight glass)
DEF tank	33 l
Electr. system	24 V
Electric installation	Easy and very clear
Batteries	2 x 150 Ah , main switch
Options	<ul style="list-style-type: none"> ■ Low-temperature package with engine pre-heating and heated diesel filter ■ Electric fuel pump

UPPERCARRIAGE

Design	Torsion-resistant box design, precision crafted, bronze bushings for boom bearing arrangement, clear and very service-friendly concept, engine installed in the longitudinal direction
Electrical system	Central electrical distributor, battery disconnect switch
Lighting	LED headlights for optimal illumination of the work area
Safety	<ul style="list-style-type: none"> ■ Camera monitoring of the rear area and on the right side
Options	<ul style="list-style-type: none"> ■ Maritime climate varnish as corrosion protection ■ Low temperature package ■ Ballast support fixture ■ Pinion tooth lubrication for slewing ring, outer ■ Automatic central lubrication system for equipment and slewing ring ■ Further cameras on customer request ■ Uppercarriage railing right + left

HYDRAULIC SYSTEM

Pump type	The hydraulic pumps are variable displacement piston pumps with individual control and energy-saving flow-on-demand control.
Pump control	The pumps only supply as much oil as is actually consumed. Pressure cut-off, load limit sensing control
Operating pressure	max. 330 bar
Filtration	High-performance filtration with long-term change interval, contamination indicator, SENNEBOGEN HydroClean micro-filter system with water separator, option
Hydraulic tank	max: 750 l / 575 l (center of the sight glass)
Control system	Proportional, precision hydraulic servo control of the movements, 2 servo joysticks for work functions, supplemental functions via switches and foot pedals – arranged clearly and ergonomically. High energy efficiency due to large-dimensioned hydraulic valves and lines. Measurement connections in the hydraulic circuits
Safety	Hydraulic circuits secured with safety valves
Options	<ul style="list-style-type: none"> ■ Bio-oil – environmentally friendly ■ SENNEBOGEN HydroClean micro-filter system with water separator

SLEWING DRIVE

Gearbox	Compact planetary gear with slant-axis hydraulic motor, integrated brake valves
Slewing gear brake	Spring-loaded multi-disk brake
Slewing ring	Roller bearing rotary connection with exterior gearing
Slewing speed	0-2.5 rpm , 3 adjustable slewing speeds
Options	<ul style="list-style-type: none"> ■ Positioning slewing gear brake

5500E Technical data, equipment

CAB MAXcab

Cab type	Maxcab
Cab equipment	SENNEBOGEN Maxcab - cab with sliding door, vibration-damped, spacious operator area, with excellent sound insulation, large cab with outstanding all-around view and new ergonomically designed control panels, can be moved out approx. 0.8 m and hydraulically tilted back approx. 20 degrees, tinted safety glass, adjustable windshield, large sunroof, windshield wiper / washer for windshield and sunroof. Sunblind for roof window. Automatic heating and climate control with central control panel, fresh air and circulating air stage with particle filter, defroster circuit, adjustable ventilation nozzles for optimum indoor climate. Comfort seat ergonomically designed, multiply adjustable, lumbar support, headrest, adjustable arm rests and seat belt. Sunroof made of VSG safety glass (8.76 mm)
Options	<ul style="list-style-type: none"> ■ Cab type E270, can be hydraulically elevated 270 cm, can be inclined 20° ■ Platform with railing next to cab ■ Auxiliary heating system with timer ■ Activated-carbon filter for cab ■ Sliding window in operator door ■ Armored-glass sunroof, rigidly glazed ■ Cab windshield in armored-glass design, rigidly glazed ■ Sunblind for windshield ■ Protective roof grating ■ FOPS protective roof grating for roof ■ Radio kit with antenna and speakers ■ Radio with CD player ■ SENtrack

- Options
- Max. boom length with SHLH equipment: 80.3 m
 - Max. boom length with SHWS equipment: 52.3 m + 52.3 m
 - Auxiliary jib, for load ratings to 12 t
 - Auxiliary jib, for load ratings to 24 t
 - Fly jib up to 29.9 m

UNDERCARRIAGE

Design	Very strong Star-Lifter wide-gauge crawler undercarriage, with integrated, protected drive transmission
Travel drive	Strong travel drive with axial piston hydraulic motor and directly attached automatically functioning brake valve and compact planetary gear on each running gear side
Parking brake	Spring-loaded multi-disk brake
Traveling gear	Maintenance-free tractor traveling gear with hydraulic chain tension, 1000 mm flat base plates
Travel speed	0 - 1.4 km/h
Options	<ul style="list-style-type: none"> ■ 1200 mm flat base plates ■ Star-Lifter telescopic undercarriage

WINCH

The winches are driven via high-pressure-regulated adjustable hydraulic motors, thus there is always optimal pulling force speed control. Hydraulic lowering brake valves for sensitive, wear-free braking. Strong oil-bath planetary gear, low-maintenance. Holding brakes are spring-loaded, maintenance-free, low-wear disc brakes running in the oil bath, oil-cooled.

Main winches

Rope winch (rated load) 1st layer	160 kN
Rope diameter	26 mm
Rope speed 1st layer	0 - 105 m/min

ATTACHMENTS

Design	Decades of experience and the latest computer simulations guarantee the greatest degree of stability and life-span
Boom adjustment winch	Slant axis hydraulic motor drive with compact planetary gear and 2 x 67 kN tensile force; rope diameter 22 mm.
Safety brake	Spring-loaded disk brake
Crane safety	Latest generation of load moment monitoring, display shows all important data, lifting limit switch, pressure relief valves, cable exit protection
Boom	SH boom length up to 74.7 m

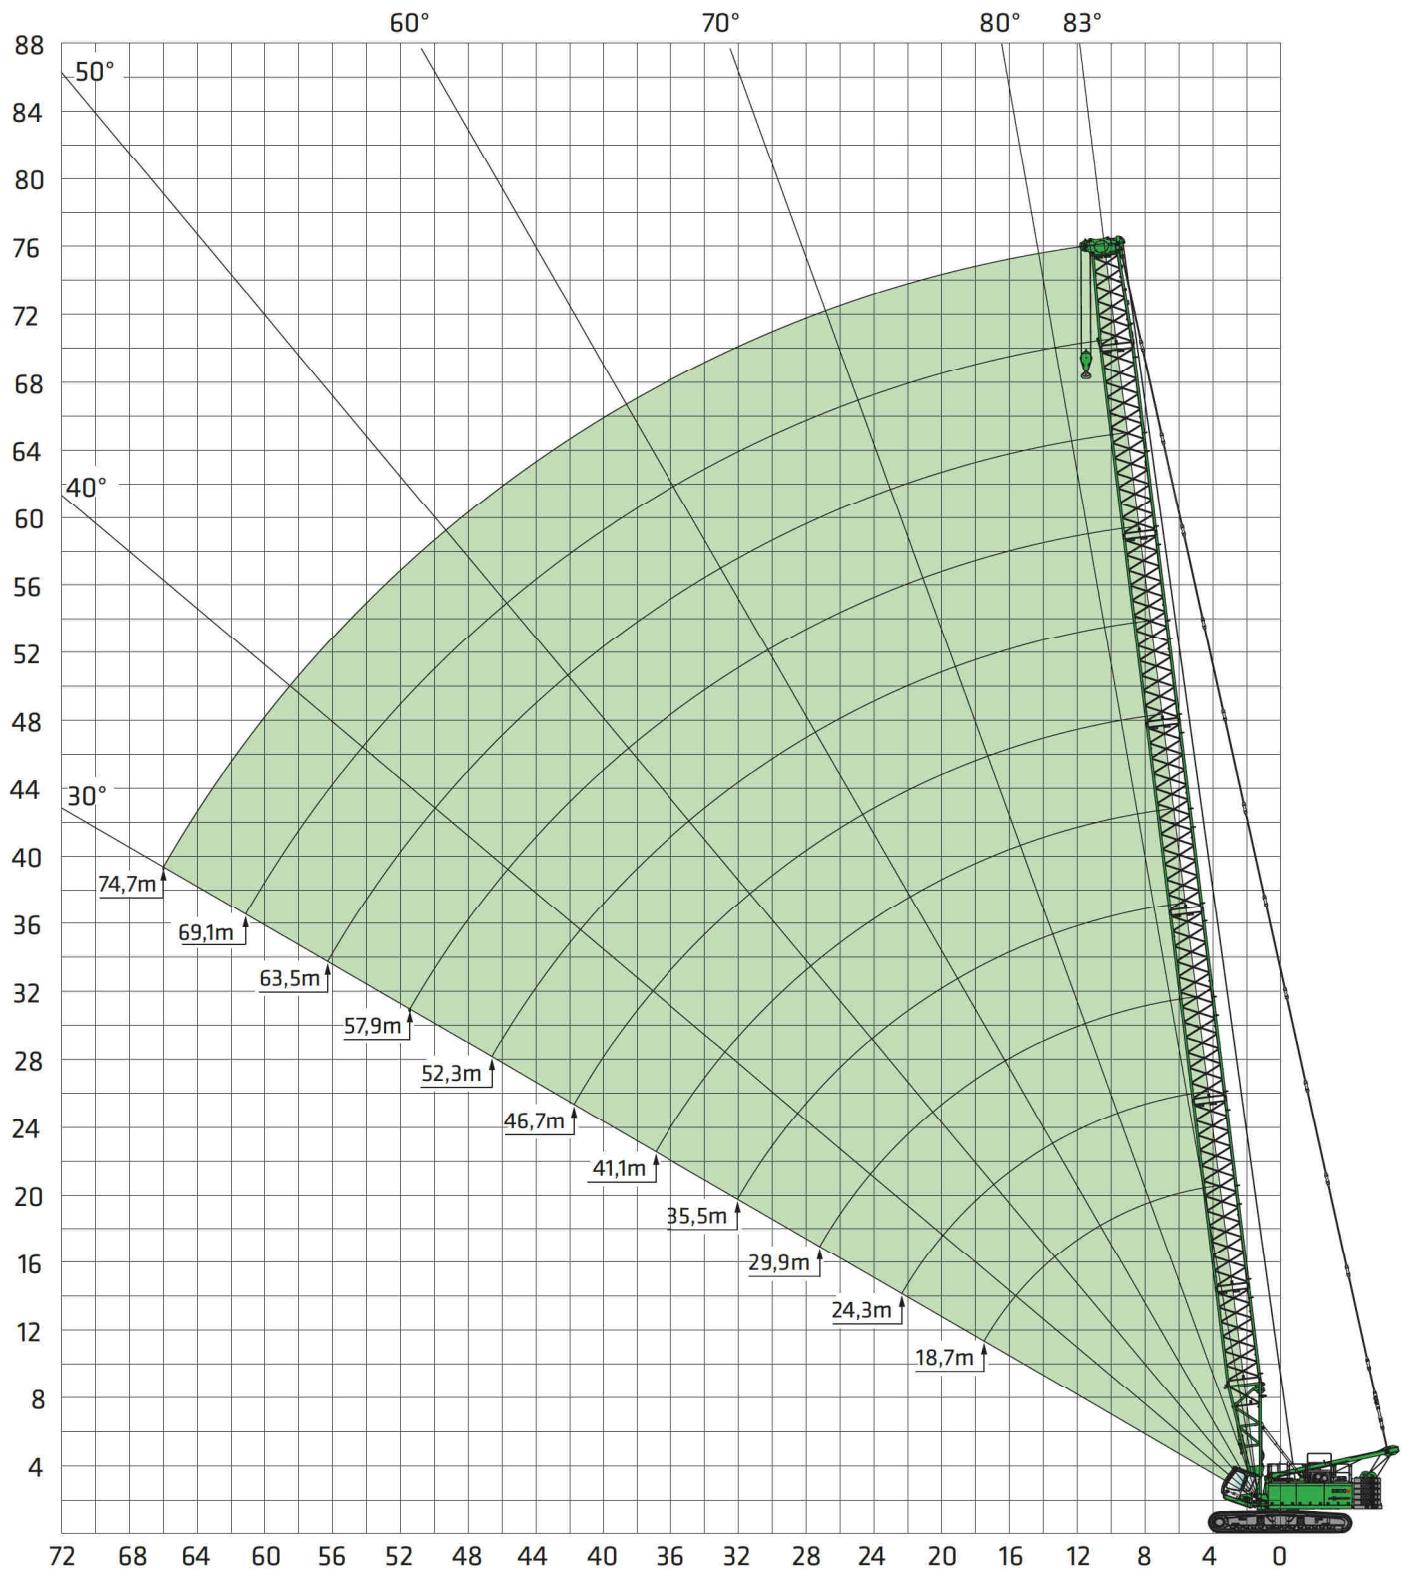

OPERATING WEIGHT

Mass	approx. 166,000 kg 5500 Star-Lifter with 2 hoisting winches, basic boom 18.7 m, counterweight 60 + 26 t undercarriage counterweight, 1000 mm flat base plates, hoisting rope, and 80 t bottom hook block
Notice	The operating weight varies depending on the version and equipment.

Comments:

- The specified load ratings apply to a level and stable stance of the machine.
- Load ratings are in tons and apply to 360 degrees.
- The load ratings take into account the standards DIN 15019/2 and ISO 4305 (tilting angle 4°).
- Deduct the weight of the load handling devices (hook, suspension gear) from the load ratings.
- The load ratings apply to the maximum undercarriage track width.
- Load ratings must be limited or reduced when conditions are unfavorable, such as soft or uneven ground, slopes, wind, lateral loads, swinging loads, jerking, or sudden stopping of load, operator inexperience, driving with load.
- Permissible rope pull per strand in crane mode for winch diameter 26 mm – 12,000 kg
- Load ratings apply to the boom assembly in accordance with the operating manual.
- Load ratings apply to optimum boom assembly and a pulley head with plastic pulleys.
- The specified load ratings are only for orientation. See the operating manual for the respectively valid load ratings.
- Values indicated with * or ** apply only with special equipment or a special boom attachment.

This catalog describes machine models, scopes of equipment of individual models, and configuration options (standard equipment and optional equipment) of the machines supplied by SENNEBOGEN Maschinenfabrik. Machine illustrations can contain optional equipment and supplemental equipment. Actual equipment may vary depending on the country to which the machines are delivered, especially in regard to standard and optional equipment.

All product designations used may be trademarks of SENNEBOGEN Maschinenfabrik GmbH or other supplying companies, and any use by third parties for their own purposes may violate the rights of the owners.

Please contact your local SENNEBOGEN sales partner for information concerning the equipment variants offered. Requested performance characteristics are only binding if they are expressly stipulated upon conclusion of the contract. Delivery options and technical features are subject to change. Errors and omissions excepted. Equipment is subject to change, and rights of advancement are reserved.
